Materials are arranged in the order of their use in the classroom. Content of each class hour is indicated and includes: (1) perception drills, (2) dialogue, with adjunct, cultural notes, cartoons, and suggested homework, (3) questions for the recitation hour, (4) pattern drills, (5) a recombination exercise text for comprehension or reading exercise, and (6) additional drills, exercises, and readings in area background. ## PREFACE

This is the first in a series of volumes comprising the field test edition of the Defense Language Institute Basic Course of Haitian Creole prepared by Mrs. Roilande Turnier under the direction of the Systems Development Agency.

This student text was extracted from the more comprehensive instructor's guide to the materials contained in Albert Valdman's Basic Course in Haitian Creole and those prepared additionally by Mrs. Turnier. Professor Valdman's course was prepared under terms of a research contract with the Office of Education and issued as a Language Science Monograph by Indiana University. Mrs. Turnier, a native of Haiti and since 1962 an instructor of the French Department of the West Coast Branch of the Defense Language Institute, has added significantly to the Valdman course and selected and arranged materials to fit the DLI mission, school organization, and time frame of six hours of instruction per day.

Materials are arranged in the order of their use in the classroom. The content of each hour is preceded by a Roman numeral:

- I. Perception Drill (1400)
- II. Dialogue, with Adjunct, Cultural Notes, and Cartoons, as well as suggested Homework (1500)
- III. Questions, for the Recitation Hour (0800)
- IV. Pattern Drill (0900)

V. A Recombination Exercise, Text for Comprehension,  
or Reading Exercise, leading to Free Expression (1000)

VI. Additional Drills/Exercises or Readings in Area  
Background (1300)

Sections I and III and a number of subsections have been  
omitted from the student text.

For independent use by the student, each lesson is  
introduced by a free translation of the dialogue and concluded  
with grammar notes and a list of the lesson's new vocabulary.  
Every fifth lesson is a review lesson.

To change the pace and to account for individual differ-  
ences in rate and manner of learning, the second, fourth, and  
sixth hours of the daily lesson cycle are usually periods of  
supervised independent and personalized study, with specified  
materials made available on tape and in area background  
literature.

##### References:

1. Valdman, pages 81-84.

##### A. Pronunciation Drills

###### 1. Syllabic /m/

- a. The sound /m/ stands often by itself and is, therefore, treated as a syllable. To pronounce it properly, keep your lips tightly together while uttering it. The sound must be completed before you separate your lips.
- b. In front of a verb beginning with a consonant, the syllabic /m/ replaces the pronoun subject mouen.

(1) Exercise: Listen carefully to the following sentences.

M ba ou 1.                  M pa lakay.

M di yo bonjou.            M rété isit.

M fè sa.                    M té ouè 1.

M gadé ti-moun yo.        M sové 1.

M jouenn ni.              M vlé.

M kité yo.                M ouè 1.

M loué 1.                Sé 1a m yé.

M mandé nouvèl li.     Msieu, bonjou.

M naje bien.

(2) Exercise: Repeat the above sentences, after each has been modeled twice for you.

c. The syllabic /m/ represents mouen also after a verb which ends in a vowel sound.

(1) Exercise: Listen carefully to the following sentences. Note especially the cases in which the /m/ sound appears in final position.

Manman m ap chèché m.

Ti-gason m nan ouè m.

Yo kontré m.

Li kouté m.

Sé kat didantité m.

Papa m sanblé m.

Yo voyé m nan buro m.

Ou ouè mari m.

Sé msieu m.

(2) Exercise: Repeat the sentences, after they have been modeled twice.

## 2. The sound /n/

a. In pronouncing /n/, the tip of the tongue touches the back of the upper teeth.

(1) Exercise: Listen carefully to the following words:

nou      n ap      nonm

nò      nivo      novanm

nan      nègès

(2) Exercise: Repeat the above words after each has been modeled twice. Do not forget to touch the back of your upper teeth with the tip of your tongue.

(3) Exercise: Listen to the /n/ in final position:

liann <u>n</u>	konn <u>n</u>	bannann <u>n</u>
tann <u>n</u>	fonn <u>n</u>	marenn <u>n</u>
jèn <u>n</u>	rasin <u>n</u>	désann <u>n</u>
jouenn <u>n</u>	kabann <u>n</u>	kolonn <u>n</u>
grenn <u>n</u>	santèn <u>n</u>	

(4) Exercise: Now repeat the above words after each has been modeled twice.

b. As in the case of /m/, /n/ may stand by itself before a verb beginning with a consonant or after a verb ending with a vowel. This syllabic /n/ stands for nou, 'we' or 'you' (plural).

(1) Exercise: Listen to the following sentences:

Ki koté n ouè yo?

Ban n nouvèl Alsé?

Ki jan n yé? N pa pi mal.

Ki sa n di la-a? N pa di anyen.

Ki moun nou kontré? N kontré Mari.

Yo mandé n pou li. N mandé pou li tou.

Kouman n yé? N ap grandi.

Y a ouè n pi ta.

Sé konpè n ak kòmè n.

N jouennn ni lakay.

(2) Exercise: Repeat the above sentences after each has been modeled twice.

C. Other Exercises:

1. Study the Grammar Notes.
